Trevor Mackin

FULL STACK WEB DEVELOPER

HERE'S MY STORY:

Up and coming Web Developer seeking exciting new beginnings. From Social Worker to Software Engineer, I began self teaching with roughly 800 hours of training. I followed this up with an additional 800 hours of a more formal education at the Epicodus Coding Bootcamp. I am a highly motivated team player, focused, and someone others can rely on to be fully invested. I will bring a fresh outlook and a unique skillset to any team, and am looking forward to getting started as we embark on this journey together.
